3. **RS** - right side, the side that faces out on a garment.
4. **WS** - wrong side, the side that faces in on a garment.
5. ***to*** - do/repeat as indicated between the asterisks

6. **Moss stitch:** it is created by alternating knit and purl stitches in the same row, working all the stitches of the next row as they appear, then knitting the opposite stitches in the next row and repeating that row.

7. **Cast off in pattern - rib stitch:**
 - Work the first 2 stitches as they appear, this means knit the knits, and purl the purls. You will have 2 stitches on your right-hand needle.
 - Insert the left-hand needle through the first stitch worked on your right-hand needle and pass that first stitch over the second one. You will have 1 stitch on your right-hand needle.
 - Repeat step 1 and 2 until there are no more stitches on your left-hand needle.

8. **Cast off in pattern - moss stitch (US)/ double moss stitch (UK):**
 - Work the first 2 stitches this way: purl the knits, and knit the purls. You will have 2 stitches on your right-hand needle.
 - Insert the left-hand needle through the first stitch worked on your right-hand needle and pass that first stitch over the second one. You will have 1 stitch on your right-hand needle.
 - Repeat those two steps until you have casted off the indicated number of stitches.

9. **M1** - this is an increase, work into the strand between two stitches insert the left-hand needle from back to front, then insert the right-hand needle through that strand from left to right and knit one.

How to read this pattern:

You have to work this pattern *in the Round* and *Back and Forth*

When you work in the **Round**:

Work all the rows facing the RS.

When you work **Back and Forth**:

Work ODD rows facing the WS.

Work EVEN rows facing the RS.

WORK IN THE ROUND: when knitting *in the Round*, once the first row is finished, you should not turn your work, just continue knitting the first stitch you made at the beginning. This way you always work facing the **RS** and the sweater will be closed without seams.

CLOSE THE CIRCLE AT THE BEGINNING: once you have the stitches required, distribute them along the needles and after checking that there are no twisted stitches, taking each of the tips of the needles closes the circle as follows :

1. slip the last stitch of the left-hand needle to the right-hand needle,
2. now take what is now the second stitch on the right needle and pass it over the stitch you just passed. In this way you will have a perfectly joined circle.
3. Place two markers, one at the beginning of the round, (if you do not have a marker you can tie a piece of wool around the needle) and another between stitches **38** and **39**, this way you will know where the front begins and where the back.

WORK BACK AND FORTH: when knitting *back and forth*, once you have finished one row you must turn the work and continue knitting the next row on the opposite side. If you were knitting facing the **RS** the next row will be facing the **WS** and vice versa.
